

Tai Lao for the Savior : Northeast

My family; Nui, my wife is more available to visit the Churches with us. She really enjoys spending times among the ladies at those congregations. So great to have her with me and the team on the small trips. Lily, our daughter has more free time from classes on weekends. She comes on the trips with us to hang out with the youth build relationship with others as well. Titan, a boy we're taking care of is very an easy-going boy. He gets along so well with kids. He can entertain everyone with his unique personality. We are so thankful for the blessing through all of you that build us to be the blessing for others as well.

Start the year of 2024 by getting honorably requested to help at the wedding; getting a team to decorate the whole empty space under a big tree to the impressive wedding festivity. We got the whole idea of the bride and the groom of their special day to be like. We spent six hours to set all up. They love it and every guest loves all of the whole place.

Nong Kai is one of the congregations that we copy some of the activities of what we are workin with Ban Jumpa. Here at Nong Kai there are young men that have potential to carry the work. They are now trained under the leaders project through the daily work that will be the job in the future. This is the first time for the whole team to visit with them at their own place. We set up the goal to get everyone know each other more deeper and get them bring neighbors to join our

activities that we can know them through the Christians there. We setup booth to repair the appliances. Till we finish fixing those things, we have talked to those people, get to know them and introduce ourselves to all of them and also promote the Church there.

Two times a week that I still keeping to

Campus to reach out to the students. Besides introducing myself to them, I introduce them to know and learn from the WBS and WEI too. This is a good tool to reach out to all of them.

**GO, MAKE DISCIPLES,
BAPTIZE. TEACH THEM**

Expenses, January 2024	
Trip to Nong Kai and <u>Chaiyapoom</u> = 218+113	Social Security = 45, Contribution 120
Campus work = 64	<u>Total Amount</u> \$ US 560
